AWS Success Story: Emir's Journey

emirafwan.github.io

SUMMARY

I'm a passionate Cloud DevOps Engineer with more than 3 years of experience specializing in CI/CD pipelines, cloud infrastructure, and automation. I'm dedicated to streamlining development processes and bridging the gap between development and operations teams.

SKILLS

1. Multi-Cloud Architecture
2. IaC and Automation
3. CI/CD Orchestration
4. Containerization and Kubernetes
5. Cloud Security & Compliance
6. Site Reliability Engineering

EXPERIENCE

Jun 2025 – Now

Cloud Engineer | Deeeplabs Pte Ltd | Singapore - Remote

- Architected an AWS based Cloud Self Service portal, automating infrastructure provisioning and management in isolated networks and reducing delivery time for a leading **Singapore public university**.
- Modernized 50+ .NET and Java applications by migrating manual deployments to automated SHIP-HATS CI/CD pipelines (Gitlab, Trivy, SonarQube) a major **Singapore polytechnic institution.**
- Developed a scalable Serverless infrastructure to automate high-traffic queue management for a **Singapore government ministry.**

Apr 2025 – Now

Independent Cloud & DevOps Consultant (Freelance) | Remote

- **Credential Verification Bureau (via Upwork):** Managed high-availability AWS resources and slashed operational costs by 40%.
- **PT Swipe Pay Indonesia:** Engineered a high-availability environment strictly adhering to PCIDSS standards and achieve 100% compliance during very first Swipepay PCIDSS audit in 2025

Mar 2025 – May 2025

DevOps Engineer | FLEXIDEV Pty Ltd| Australia - Remote

- Engineered a multi-cloud asynchronous backup solution from AWS to DigitalOcean with Rclone to ensure GDPR compliance.
- Engineered hybrid CI/CD pipelines target Proxmox and Azure App Service with Blue-Green deployments to ensure zero-downtime releases.

May 2024 – Jan 2025

Cloud Engineer | G-AsiaPacific Sdn Bhd| Indonesia - Hybrid

- Led technical cross-border collaboration between **HQ engineering and Indonesian clients**, streamlining project delivery and ensuring 100% alignment with regional regulatory requirements
- Architected a secure, multi-account hybrid AWS Landing Zone compliant with **PCIDSS standards** to handle sensitive financial data for a fintech platform.

Aug 2022 – May 2024

AWS Managed Service | PT. Central Data Technology| Indonesia - Hybrid

- Managed mission-critical AWS infrastructure for high-profile clients, ensuring 99.99% availability for enterprise-scale SAP, ERP, ArcGIS, and Core Banking systems.
- Maintained a 100% support success rate for hundreds of complex L3 cloud infrastructure cases, consistently exceeding SLA targets and client expectations.
- Architected a secure, multi-account hybrid AWS Landing Zone compliant with PCI DSS standards to handle sensitive financial data for a fintech platform.

EDUCATION

Sep 2018 – Feb 2022

Universitas Esa Unggul | Computer Science | 3.74 GPA (Top 10% of class)

LANGUAGES

- **Bahasa Indonesia:** Native
- **English:** B2 (IELTS – valid until Aug 2026)
- **German:** A1 (Goethe-Zertifikat: Start Deutsch 1)

CERTIFICATIONS

- Google Professional Cloud Architect (Valid until July 2026)
- Google Associate Cloud Engineer (Valid until June 2027)
- AWS Certified DevOps Engineer – Professional (Valid until January 2027)
- AWS Certified Solutions Architect – Professional (Valid until September 2026)
- AWS Certified Security – Specialty (Valid until April 2027)
- AWS Certified SysOps Administrator – Associate (Valid until March 2026)
- AWS Certified Solutions Architect – Associate (Valid until September 2026)
- AWS Certified Cloud Practitioner (Valid until January 2027)

TRAINING

- AWS Re/Start Program, July 2022
- AWS Partner: Advanced Migrating to AWS (Technical), 27 September 2022
- Google IT automation with python (Google, Coursera), 2021
- Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka, 2021

Jakarta, March 27, 2026
